Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	27 feb 2026
Team ID	699d5fd23074df695bbbb160
Project Name	Metro Ticket Generating System (ServiceNow)
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Metro Ticket Booking	User selects source and destination stations through Service Portal
FR-2	Passenger Details	User enters passenger count and travel date
FR-3	Fare Calculation	System automatically calculates fare based on selected stations
FR-4	Ticket Generation	System creates ticket record and generates QR code

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	System should provide simple Service Portal interface for ticket booking
NFR-2	Security	Only authorized users can access ticket records using ACL rules
NFR-3	Reliability	System should correctly store ticket records in database

NFR-4	Performance	Ticket request processing and QR generation should happen quickly
NFR-5	Availability	Service portal should be available whenever users access the system
NFR-6	Scalability	System should support future enhancements like payment integration
